

OLD CAROLINA ROAD
Words and Music by Greg Derby © 2006

Come meet me Old Carolina Road
Gonna live some tales yet to be told
Want to raise some hell before we grow old
Laughing as we go
Rolling down Old Carolina Road (chorus)

I was born 'neath the new moon's light at a stop on Highway 9
And I learned to dream and I learned to love far beyond those highway signs
Well' I've had my fun living on the run all these years out on my own
But I need to change and I'm here to see if you will come and ride with me

Chorus

Well I've known you since you were three but you shied away from me
Cause I was wild and you were quiet and our paths would seldom meet
But we're older now and I've settled down as much as I can be
So if you want to know where this road may go better take a chance on me

Chorus

Well you've heard my song and I'm on my knees and I've even asked you please
Now the offers out and the door is wide take your place in my front seat
Let down your hair and feel at ease but know this ride ain't free
Cause you've got to smile as we ride in style and you see what life can be

Chorus

Recording Notes

Engineered, Mixed and Mastered by Chris Byrde at World Flight Productions, Inc., Bethesda, MD
Recorded at Story Street Studios (i.e. the Derby home) and World Flight Productions, Inc. Guitars
were recorded at home and the vocals were recorded in the studio.

Vocals and Guitars: Greg Derby
